Bosnia - Herzegovina Specific Prayer Needs

The post-war socio-economic situation is troubled, and recovery is slow. A poor country even before the strife, Bosnia still struggles with poverty. Only organized crime syndicates do well for themselves; these groups must be shut down if Bosnia hopes to join the EU with all the accompanying financial rewards. Young people in particular are pessimistic – more than 60% want to leave the country; the brain and youth drains further sap Bosnia's potential. Pray for economic transformation, and for a new generation of Bosnians to lead their nation into a bright future rather than flee a sinking ship.
