## Denmark Answer to Prayer

**There is some encouraging progress on the spiritual scene, including a marked increase in spiritual openness among Danes.** The number who believe in a personal God, while still low (33%), has notably increased in recent years. New churches are being planted, new ministries are being founded and unity among believers is increasing. Groups include Pray for Denmark and Intercessors for Denmark.

## Denmark Specific Prayer Needs

**Much of the Lutheran Church** is experienced by ordinary Danes as ritualistic and dead, and the fresh winds of the Holy Spirit must blow through this institution. Church attendance is around 2%. There are a number of organizations promoting renewal or revival in the state Church – Indre Mission, Luthersk Mission, Evangelisk Luthersk Mission, Oase and Nyt Liv. Free churches, Lutheran and otherwise, contribute greatly to the spiritual life of the nation. Pray for wisdom for all who seek to transform the Church and make it relevant to secular Danes.
