Moldova Specific Prayer Needs

The influence of the Orthodox Church makes evangelical work difficult. Preaching and planting churches in traditionally Orthodox villages is especially opposed, frequently with violence. Bureaucratic antipathy to any non-Orthodox work means that building and registering churches is a difficult process; houses are usually converted to make new evangelical buildings. Yet there is also life in the Orthodox Church, especially through Agape, a ministry of The Lord's Army. Pray that the Holy Spirit would deepen the spiritual life of many from the Orthodox faith.
